Index to Volume XXIX

Abbreviations:—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists or at other meetings or symposia. '(L)' refers to letters to the Editor.

ABER, V. *See* CLANCEY, J. K., ALLEN, B. W., *et al.*
Abscess, cerebral, bacteriology of, report of collaborative study with neurosurgeons in England and Wales (P), **1044**
Absorbance accuracy check on LKB 8600 reaction rate analyser, **758**
Acanthamoebae from eye infections, tests of chemotherapeutic compounds for activity against, **648**
ACHESON, E. J. *See* LAWLER, W., TARPEY, P., *et al.*
Acid-fast bacilli, machine and manual staining of direct smears for, comparison by fluorescence microscopy, **931**
ADAMS, D. *See* WILLIAMS, D. F., and ADAMS, D.
ADAMS, M. A. *See* ANDERSON, J. D., ADAMS, M. A., *et al.*
Adenomas, pituitary, chromophobe, prolactin in, localization by immunoperoxidase technique in necropsy study, **250**
Adenosine monophosphate, cyclic, urinary, in young adults and elderly subjects, **69**
Adenosquamous carcinoma of endometrium, **959**
Adenoviruses, fluorescent antibody responses to, **411**
ADLER, B. *See* BRAGGER, J. M., and ADLER, B.
AHMAD, F. J., and DARRELL, J. H.: Significance of the isolation of *Clostridium welchii* from routine blood cultures, **185**
AL BARZANJI, A. J., PENNY, S. R., and EMERY, J. L.: Development of germinal centres in the spleen in infants related to birth and unexpected death, **675**
Alkali, pseudomonad producing, meningitis caused by, **1088**
Alkaligenes faecalis in incubator humidifiers (L), **1133**
Alkaline phosphatase activity, neutrophil, changes after splenectomy (L), **172**
—— —— conjugated to anti-immunoglobulin in solid phase antibody assay, **1116**
—— —— isoenzyme patterns in serum in obstructive liver disease, interpretation of, **976**
—— —— isoenzymes, polyacrylamide gel disc electrophoresis in bone and liver disease, **782**
—— ——, neutrophil, changes in (L), **1040**
—— ——, serum, liver-originating isoenzymes of, in malignant schwannoma of sciatic nerve, **237**
ALLEN, B. W. *See* CLANCEY, J. K., ALLEN, B. W., *et al.*
ALLEN-MERSH, T. G.: Weber-Christian panniculitis and autoimmune disease: a case report, **144**
ALLISON, F. *See* HART, A., COHEN, H., *et al.*
ALLISON, R. T., SLADE, M., and WALKER, D. M.: A method for distinguishing sheep erythrocytes adherent to human tissue sections, **79**
Alphafetoprotein. *See* α-Fetoprotein
AMADORI, G. *See* SEMENZATO, G., AMADORI, G., *et al.*
Aminoglycoside antibiotics, treatment with, changes in urinary γ-glutamyl transferase excretion during (P), **1046**
Amniotic fluid, lecithin-sphingomyelin ratio determinations in, stabilization of bromthymol blue colour in, **908**
Amoebiasis, missed diagnosis of (P), **83**
Amylase assay by Phadebas method (L), **174**
Amyloid, cardiac, sodium sulphate-Alcian blue stain for, experience with, **22**
Amyloidosis, pulmonary, case of (P), **1046**
Anabolic steroids, synthetic, hepatic lesions after treatment with, **626**
Anaemia, haemolytic, autoimmune, EDTA-dependent red cell-neutrophil rosetting in, **345**
——, macrocytic, anisocytosis and Coulter Channelyzer C-1000 in, **719**
——, sickle-cell, blood picture changes from shortly after birth to adolescence in, **898**
Anaerobic bacteriology in York (P), **1045**
—— culture for improved isolation of *Streptococcus pneumoniae*, **50**
—— infections, diagnosis by gas-liquid chromatography of clinical material, **428**
—— jars, tests of performance of, **534**
Analyzer, Beckman BUN, serum urea analysis with, **517**
——, reaction rate, LKB 8600, absorbance accuracy check on, **758**
——, Vickers M300, introduction into hospital laboratory service, installation, staffing, logistics, **322**
——, —— ——, —— —— —— —— ——, tests, methods, evaluation, **328**
ANAND, C. M., MACKAY, A. D., and EVANS, J. I.: *Haemophilus aphrophilus* endocarditis in pregnancy, **812**
——, and PAULL, A.: A modified technique for the detection of antibiotic synergism, **1130**
ANDERSON, J. D., ADAMS, M. A., SHEPHERD, C. A., and WILSON, L. C.: Action of mecillinam upon Gram-positive urinary tract pathogens under conditions simulating urinary tract infection (P), **1046**
ANDREWS, A. G., HORACEK, I., and BETHERAS, F. R.: Stabilization of bromthymol blue colour in lecithin-sphingomyelin ratio determinations in amniotic fluid, **908**
Aneurysms and ruptures, arterial, after pulmonary embolism, **665**
Angioendotheliomatosis, systemic, with metastases, case of, **347**
Anisocytosis, red cell, and Coulter Channelyzer C-1000 in macrocytic anaemia, **719**
ANNEAR, D. I., MEE, B. J., and BAILEY, M.: Instability and linkage of silver resistance, lactose fermentation, and colony structure in *Enterobacter cloacae* from burn wounds, **441**
ANTHONY, P. P., VOGEL, C. L., GLAZER, R. I., and MCINTIRE, K. R.: Grade of histological differentiation, glutamate dehydrogenase activity and alphafetoprotein production in human hepatocellular carcinoma (P), **86**
Antibacterial drugs, assay by microbiological procedure using *B. stearothermophilus*, **858**
Antibiotics, susceptibility of group B streptococci to, **736**
——, synergism, detection of, technique for, **1130**
——. *See also* Aminoglycoside antibiotics
Antibodies, group-specific, adsorbed to staphylococcal protein A, grouping of β-haemolytic streptococci with, **1085**
——, IgM, specific, detection in sera after recent infection with influenza A viruses, **423**
——, serum, and jejunal histology in giardiasis associated with malabsorption, **30**
——, ——, in giardiasis (L), **863**
——, smooth muscle, detected by immunofluorescence, classification of, **403**

——, sperm, incidence before and after vasectomy, **1127**
—— to connective and other tissue in sera of coeliac disease patients compared with mixed hospital population, **484**
Antibody affinity, role in immune complex diseases, study in experimental models (P), **84**
—— and antigen, infantile gastroenteritis virus (orbi-group), counter-immunoelectro-osmophoresis for detection of, **191**
—— assay, solid phase, by alkaline phosphatase conjugated to anti-immunoglobulin, **1116**
—— detection using range expansion and longer filter wavelength in low ionic strength-protamine sulphate AutoAnalyzer system, **991**
——, EB virus, and infectious mononucleosis in boarding school for boys, **42**
——, heterophil, and EBVCA specific IgG and IgM, measurement in suspected infectious mononucleosis, **841**
——, red cell, specific, produced by Waldenström's macroglobulinaemia, **219**
—— responses to adenoviruses in immunofluorescence study, **411**
—— to germ tube of *C. albicans*, indirect immunofluorescence assay for, **1007**
——, toxoplasma, microplate enzyme immunoassay for, **150**
——, viral. *See* Viral antibody
Anticonnective tissue 'antibodies' in sera of coeliac disease patients compared with mixed hospital population, **484**
Antigen and antibody, infantile gastroenteritis virus (orbi-group), counter-immunoelectro-osmophoresis for detection of, **191**
——, hepatitis B (Australia). *See* Hepatitis B antigen (surface antigen)
Antiglobulins, IgG and IgM, solid phase radioassay for, in laboratory diagnosis of rheumatoid arthritis, **1121**
Anti-immunoglobulin alkaline phosphatase conjugate in solid phase antibody assay, **1116**
Antimicrobial substances, various, susceptibility of urinary pathogens to, 4-year study of, **292**
Antiseptics and disinfectants, sensitivity of Providence to, **815**
Antitetanus immunoglobulin provision, recruitment and plasmapheresis of donors for, **211**
Antithrombins, plasma, differential determination of, method for, **63**
API 20E and Enterotube methods for identification of Enterobacteriaceae, comparison with conventional methods, **158**
Appendix, carcinomas and carcinoid tumours of, in district general hospital, **687**
APPLETON, D. *See* EVERED, D. C., VICE, P. A., *et al.*
ARIYAWANSA, J. P., and TOBIN, J. O'H.: Fluorescent antibody responses to adenoviruses in humans, **411**
Arterial ruptures, aneurysms and other wall lesions after pulmonary embolism, **665**
Arthritis, rheumatoid, and systemic lupus erythematosus (P), **84**
——, ——, laboratory diagnosis by solid phase radioassay for IgG and IgM antiglobulins, **1121**
Ascorbic acid content of leucocytes in abnormal leucocyte states (P), **86**
Asian immigrants in Britain, osteomalacia during pregnancy in, biochemical indices of, **981**
ASQUITH, P. *See* MALLAS, E., TERRY, J. M., *et al.*
——. *See* WILLIAMSON, N., ASQUITH, P., *et al.*
Association of Clinical Biochemists: Reports and Bulletins, **157, 230, 304, 443, 529, 847, 966**
Association of Clinical Pathologists: 95th General Meeting, **83**
—— —— —— ——: 96th General Meeting, **1043**
Association of Clinical Pathologists Hepatitis Survey, 5-year study of (P), **1044**
Australia antigen. *See* Hepatitis B antigen (surface antigen)
AutoAnalyzer low ionic strength-protamine sulphate system, antibody detection using range expansion and longer filter wavelength in, **991**
Autoimmune disease and Weber-Christian panniculitis, case of, **144**
—— haemolytic anaemia, EDTA-dependent red cell-neutrophil rosetting in, **345**
—— thyroiditis, incidence of (P), **87**
AZNAR, J., TORMO, C., GARCIA RAMOS, J. L., COLOMER, M. J., VILA, V., and RUANO, M.: Prognostic significance of serum levels of fibrin/fibrinogen degradation products and of myocardial enzymes in acute myocardial infarction (L), **662**
Azure B, purified, as reticulocyte stain, **1060**

Bacilli, acid-fast, machine and manual staining of direct smears for, comparison by fluorescence microscopy, **931**
Bacillus Calmette-Guérin. *See* BCG
Bacillus cereus in food poisoning, identification of enterotoxigenic activity of emetic type associated with, **938**
—— —— —— —— ——, production of enterotoxins by, **941**
—— *sphaericus* infection, pseudotumour of lung due to, **806**
—— *stearothermophilus*, assay of antibacterial drugs by microbiological procedure using, **858**
Bacteraemia and septicaemia, detection of, comparative study of 2 systems for, **530**
Bacteria, aggregation, errors in viable counts due to (P), **1047**
——, demonstration in host cells, evaluation of Gram-MGPLG method for, **433**
——, L-forms of, isolation by blood culture, **934**
——, resistance to povidone iodine, absence of, **752**
Bacteriology, anaerobic, in York (P), **1045**
—— of brain abscess, report of collaborative study with neurosurgeons in England and Wales (P), **1044**
Bacteroides in genital tract of non-pregnant females (L), **465**
BADEMOSI, O. *See* OLUBOYEDE, O. A., BADEMOSI, O., *et al.*
BADIN, J., and DENNE, M. A.: Clinical and immunochemical study of the serum IgG fraction not precipitated in a zinc-sodium salicylate reagent, **984**
BAILEY, M. *See* ANNEAR, D. I., MEE, B. J., *et al.*
BAIN, A. D. *See* PARKER, A. C., BAIN, A. D., *et al.*
BAKER, L. R. I. *See* MARTIN, M. J., GORDON, Y. B., *et al.*
BALL, A. J. *See* WILKINSON, P. J., BALL, A. J., *et al.*
Band shadows, radiological, on chest radiographs, morphological basis of, **610**
BARKER, C. R. *See* GOLDSTONE, A. H., CAWLEY, J. C., *et al.*
BARLOW, G. B., DICKERSON, J. A., and WILKINSON, A. W.: Plasma biotin levels in children with burns and scalds, **58**
BARNARD, H. F.: Exponential growth of medical laboratory work, 1920-2000 A.D. (P), **1043**
BARNES, A. J. *See* REID, H. L., BARNES, A. J., *et al.*
BARNES, I. C., and PENNOCK, C. A.: Enzyme defects in mucopolysaccharidoses (P), **85**
BARR, J. G., and MAHOOD, R. J.: An assessment of inositol fermentation by Klebsiellae and its implication in screening media, **827**
BARTLETT, A. *See* VOLLER, A., BIDWELL, D. E., *et al.*
BARTON, G. M. G., and ROATH, O. S.: Leucocyte ascorbic acid in abnormal leucocyte states (P), **86**
BATEMAN, C. *See* HERBERT, A., SLAVIN, G., *et al.*
BATTEY, D. A. *See* BIRD, G. W. G., WAIN, M., *et al.*
BCG immunotherapy for acute myeloblastic leukaemia, granuloma formation after, **693**
BECK, J. S. *See* YOUNG, R. J., SHERWOOD, M. B., *et al.*
BECK, P. R., and CHAUDHURI, A. K. R.: Aminoglycoside antibiotics and renal function: changes in urinary gamma-glutamyl transferase excretion (P), **1046**
BENTLEY, D. P. *See* WHITTAKER, J. A., BENTLEY, D. P., *et al.*
BENTLEY, S. A. *See* MARSHALL, P. N., BENTLEY, S. A., *et al.*
BERRY, C. L.: Aetiological factors in childhood neoplasia, **1032**

BETHERAS, F. R. *See* ANDREWS, A. G., HORACEK, I., *et al.*
BETTS, C. M. *See* COOK, M. G., EUSEBI, V., *et al.*
BEZWODA, W. R. *See* SHULMAN, G., LYNCH, S. R., *et al.*
BIDWELL, D. E. *See* VOLLER, A., BIDWELL, D. E., *et al.*
Biochemical monitoring in myeloproliferative disorders (P), **1048**
Biopsy, detection of superficial gastric carcinoma in, **756**
——. *See also* Liver biopsy, Renal biopsy
Biopterin derivatives in body fluids and tissues, **444**
Biotin, plasma levels in children with burns and scalds, **58**
BIRD, G. W. G., WAIN, M., BATTEY, D. A., HOLMES, A., and BUTLER, A. J.: Computerization of a large antenatal serology service, **711**
——, WINGHAM, J., MARTIN, A. J., RICHARDSON, S. G. N., COLE, A. P., PAYNE, R. W., and SAVAGE, B. F.: Idiopathic non-syphilitic paroxysmal cold haemoglobinuria in children, **215**
BIRD, T.: Incidence of auto-immune thyroiditis (P), **87**
Birth and unexpected death, relation to development of germinal centres in infant spleen, **675**
BISHOP, R. F., HEWSTONE, A. S., DAVIDSON, G. P., TOWNLEY, R. R. W., HOLMES, I. H., and RUCK, B. J.: An epidemic of diarrhoea in human neonates involving a reovirus-like agent and 'enteropathogenic' serotypes of *Escherichia coli*, **46**
——, ——, ——, ——, ——, ——: Rheovirus and *E. coli* in infantile enteritis (L), **762**
BISSON, M., BISSON, P., SPRATT, D., and DAVIES, S.: Urinary cytology in the assessment of progress after renal transplantation (P), **86**
BISSON, P. *See* BISSON, M., BISSON, P., *et al.*
BIZZI, B. *See* MUSEMECI, V., VINCENTI, A., *et al.*
BLACK, W. A., and DORSE, S.: Advantages of the 'blind simulated clinical' specimen in quality control in microbiology (P), **85**
BLAIR, J. A. *See* LEEMING, R. J., BLAIR, J. A., *et al.*
BLAKE, J. M., EDWARDS, J. M. B., FLETCHER, W. B., MCSWIGGAN, D. A., and PEREIRA, M. S.: Measurement of heterophil antibody and antibodies to EB viral capsid antigen IgG and IgM in suspected cases of infectious mononucleosis, **841**
——. *See also* HOSKINS, T. W., FLETCHER, W. B., *et al.*
BLECHER, T. E., and THOMPSON, M. J.: Comparison of uridine uptake in 24 hours with thymidine uptake at 72 hours in phytohaemagglutinin-stimulated cultures of pregnant and other subjects, **727**
Blood, capillary, lipoprotein estimation using, **462**
—— cell counting machines. *See* Coulter counter
—— coagulation, intravascular, disseminated, and intestinal disease (P), **1048**
—— culture, isolation of L-form bacteria by, **934**
—— cultures, routine, *Clostridium welchii* isolation from, significance of, **185**
—— donors, detection of HB_sAg in, modified Hepatest with Terasaki plate for, **264**
—— ——, recruitment and plasmapheresis for provision of antitetanus immunoglobulin, **211**
—— —— with persistent HB_s antigenaemia, serial liver biopsies in, **884**
—— films, microscopic examination of, when indicated (P), **1044**
—— picture changes in sickle-cell anaemia from shortly after birth to adolescence, **898**
—— platelet aggregation *in vitro*, human and dog, effect of meningococcal and *E. coli* capsular polysaccharides, **438**
—— —— counts in normal pregnancy (L), **174**
—— pumps, different, haemolysis caused by, laboratory study of (P), **87**
——, whole blood viscosity studies in myelomatosis (P), **1047**
BLUMGART, L. H. *See* MCGEE, J. O'D., PATRICK, R. S., *et al.*
Bone and liver disease, alkaline phosphatase isoenzymes in, polyacrylamide gel disc electrophoresis of, **782**
—— marrow, section preparation for light microscopy, **704**
—— —— suspension cultures, normal and acute leukaemic, factors influencing mitotic yields from, **583**
BONNET, M. L. *See* RISER, E., NOONE, P., *et al.*
